28). Change in troop policy for Boards of Review—discussion about whether scout should be required to recite the scout oath and law...Mr. Moultrie says that he has and will continue to give scouts a headsup that they should be prepared to recite these two. If a scout is very anxious or has special problems that prevent him from doing so, attempts should be made to place him at his ease, but consensus was that by the time a scout is a Life Scout, this should not be a problem. A discussion of how the scout lives out the oath and law in his daily life and work should be part of the discussion at his board of review. We agreed that it should be part of second class board of review and from then on to recite the oath and law.
