Each year T-714 volunteers to help our sponsor MVUMC with the MUST Summer Lunch program. We're scheduled to assemble lunches on May 20<sup>th</sup> and that leaves only next Monday, May 13<sup>th</sup>, to gather most of the supplies. If everyone could bring the items below (thanks for what has already come in!), then we could meet our goal of providing over 1,000 lunches to needy kids in our immediate area. Once school lets out, the kids served by this program generally lose two of their three meals a day (school is providing lunch and in many cases breakfast). We're using pantry and refrigerator space at MV to store items as they come in so we need any/all of it next week. That way we can inventory and plan for the assembly and delivery of the lunch kits. Thanks for your support of this great service to our community!
